TERRACORE

CHEMICALS

COMPANY PROFILE

Industrial & Specialty Chemical Distributor

South Africa to the World

8	3	COA
Product Divisions	Continents Served	On Every Order

ABOUT TERRACORE CHEMICALS

One Supplier. Eight Industries. Worldwide.

OUR STORY

Terracore Chemicals was established in Kimberley, South Africa, founded to supply agricultural and mining chemicals. Since then, the business has grown to cover eight product divisions, serving customers across South Africa, the wider African continent, and international export markets.

OUR APPROACH

Consolidated Sourcing

One supplier across eight industries, instead of managing separate vendor relationships for each.

Documented Quality

Certificates of Analysis and technical documentation available across our entire range.

Global Logistics

Export capability from our South African base to customers worldwide, in bulk and container quantities.

WHAT WE DO

Terracore Chemicals is a chemical distributor supplying eight distinct chemical categories from a single South African base. Rather than specializing in one narrow product line, we operate as a chemical distributor across multiple industries — which means a mining operation, a feed mill, and a cosmetics formulator can all source from the same reliable supply chain, with the same standard of technical documentation and export logistics behind every order.

OUR CUSTOMERS

Our customers range from large mining houses and feed manufacturers to smaller formulators and blenders who need a chemical distributor capable of handling both trial quantities and ongoing bulk supply. Every product is backed by a Certificate of Analysis on request.

OUR PRODUCT DIVISIONS

Eight specialised chemical divisions. One dependable supplier.

01

Agricultural Fertilizer Materials

Raw nutrient sources for fertilizer blending and agricultural formulation.

02

Explosives & Accessories

Commercial explosives for licensed mining operations.

03

Feed Additives & Animal Nutrition

Amino acids, premixes, and additives for livestock and feed manufacturers.

04

Homecare & Industrial Cleaning

Raw materials and bulk concentrates for cleaning product manufacturers.

05

Industrial Chemicals

Acids, alkalis, and solvents for manufacturing and processing industries.

06

Mining & Mineral Processing Chemicals

Reagents and process chemicals for flotation, leaching, and mineral recovery.

07

Personal Care & Cosmetics

Cosmetic-grade ingredients for personal care and beauty formulators.

08

Water Treatment Chemicals

Coagulants, flocculants, and biocides for industrial and municipal water treatment.

01

Agricultural Fertilizer Materials

Supporting fertilizer blenders and co-ops across export markets

KEY APPLICATIONS

- Granular fertilizer blending
- Liquid fertilizer production
- Foliar spray formulation
- Hydroponic nutrient solutions

AGRICULTURAL FERTILIZER MATERIALS

Terracore Chemicals supplies raw nutrient sources and fertilizer raw materials to blenders, co-operatives, and agricultural formulators across South Africa and international export markets. Our agricultural chemicals division is built for buyers who need consistent specification, reliable bulk supply, and documentation that meets agricultural quality requirements.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Nitrogen Sources	Urea (granular & prilled), Ammonium Nitrate, Ammonium Sulphate, Calcium Ammonium Nitrate (CAN)
Phosphate Sources	Mono Ammonium Phosphate (MAP), Di-Ammonium Phosphate (DAP), Triple Super Phosphate (TSP)
Potassium Sources	Muriate of Potash (MOP), Sulphate of Potash (SOP)
Micronutrients	Zinc Sulphate, Manganese Sulphate, Copper Sulphate, Borax, Ferrous Sulphate
Secondary Nutrients	Calcium Nitrate, Magnesium Sulphate (Kieserite), Gypsum

contact@terracorechemicals.com | +27 68 418 9952

02

Explosives & Accessories

Commercial explosives for licensed mining operations

KEY APPLICATIONS

- Open-cast mining
- Underground mining
- Quarrying operations
- Civil construction blasting

EXPLOSIVES & ACCESSORIES

Terracore Chemicals supplies commercial explosives and blasting accessories to licensed mining operations in line with regulatory and end-user verification requirements. Supply is restricted to licensed operations with valid end-user documentation, in line with South African regulation and relevant international codes of practice.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Bulk Explosives	ANFO (Ammonium Nitrate Fuel Oil), Heavy ANFO, Emulsion Explosives
Packaged Explosives	Dynamite, Permitted Explosives, Watergel/Slurry Explosives
Detonators	Electric Detonators, Non-Electric (NONEL) Detonators, Electronic Detonators
Initiating Systems	Detonating Cord, Shock Tube, Safety Fuse, Booster Charges
Accessories	Blasting Machines, Blasting Cables, Test Equipment, PPE

03

Feed Additives & Animal Nutrition

Technical nutrition inputs for livestock and feed manufacturers

KEY APPLICATIONS

- Poultry feed manufacturing
- Ruminant feed production
- Aquafeed formulation
- Pet food manufacturing

FEED ADDITIVES & ANIMAL NUTRITION

Terracore Chemicals supplies amino acids, premixes, and feed additive raw materials to animal feed manufacturers and livestock producers. Every product in this division is backed by technical documentation, including Certificates of Analysis and specification sheets for buyers who need them for their own quality and regulatory requirements.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Amino Acids	L-Lysine HCl, DL-Methionine, L-Threonine, L-Tryptophan, L-Valine
Vitamins	Vitamin A, Vitamin D3, Vitamin E, B-Vitamin complex, Vitamin C
Minerals & Trace Elements	Zinc Oxide, Copper Sulphate, Ferrous Sulphate, Manganese Oxide, Selenium
Feed Preservatives	Propionic Acid, Formic Acid, Benzoic Acid, Citric Acid
Enzymes & Probiotics	Phytase, Xylanase, Amylase, Lactic Acid Bacteria

contact@terracorechemicals.com | +27 68 418 9952

04

Homecare & Industrial Cleaning

Raw materials for cleaning product manufacturers

KEY APPLICATIONS

- Laundry detergent production
- Household cleaner formulation
- Industrial degreasers
- Disinfectant manufacturing

HOMECARE & INDUSTRIAL CLEANING

Terracore Chemicals supplies raw materials and bulk concentrates to cleaning product manufacturers, from surfactants and builders to finished-product formulation inputs. Our homecare and industrial cleaning division serves both consumer product formulators and industrial cleaning chemical manufacturers across South Africa and export markets.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Surfactants	Sodium Lauryl Sulphate (SLS), Linear Alkyl Benzene Sulphonate (LABS), Coco Betaine, APG
Builders & Chelators	Sodium Tripolyphosphate (STPP), Sodium Citrate, EDTA, Zeolite 4A
Bleaching Agents	Sodium Hypochlorite, Sodium Percarbonate, Hydrogen Peroxide
Solvents	Isopropyl Alcohol (IPA), Ethanol, Propylene Glycol, Glycerol
Thickeners & Rheology	Carbopol/Carbomer, Hydroxyethyl Cellulose (HEC), Xanthan Gum

contact@terracorechemicals.com | +27 68 418 9952

05

Industrial Chemicals

Acids, alkalis, and solvents for manufacturing and processing

KEY APPLICATIONS

- Metal processing & treatment
- Textile and leather industry
- Pharmaceutical manufacturing
- Food & beverage processing

INDUSTRIAL CHEMICALS

Terracore Chemicals supplies general industrial chemicals — acids, alkalis, solvents, and process chemicals — to manufacturing and processing industries across South Africa and internationally. As a chemical distributor, we source reliably at the volumes manufacturers need, with consistent specification and documentation across every order.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Acids	Sulphuric Acid, Hydrochloric Acid, Nitric Acid, Phosphoric Acid, Acetic Acid
Alkalis	Caustic Soda (NaOH), Sodium Carbonate, Sodium Bicarbonate, Potassium Hydroxide
Solvents	Acetone, Ethyl Acetate, Methanol, Isopropyl Alcohol, Toluene, MEK
Salts & Inorganics	Sodium Sulphate, Calcium Chloride, Ferric Chloride, Aluminium Sulphate
Specialty Chemicals	Hydrogen Peroxide, Sodium Silicate, Oxalic Acid, Glycerine

contact@terracorechemicals.com | +27 68 418 9952

06

Mining & Mineral Processing Chemicals

Reagents for flotation, leaching, and mineral recovery

KEY APPLICATIONS

- Gold and silver extraction
- Copper and nickel flotation
- Platinum group metals processing
- Base metal beneficiation

MINING & MINERAL PROCESSING CHEMICALS

Terracore Chemicals supplies mining reagents and process chemicals to mining operations across Africa and internationally. Our mining and mineral processing division covers flotation reagents, leaching chemicals, pH modifiers, and flocculants — the full range of process chemicals used in modern mineral beneficiation, supplied with the technical documentation mining operations require.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Flotation Reagents	Xanthates (SIPX, PIBX), Dithiophosphates, Frothers (MIBC, Pine Oil), Depressants
Leaching Chemicals	Sodium Cyanide, Glycine, Sulphuric Acid, Ferric Sulphate
pH Modifiers	Lime (Quicklime & Hydrated), Caustic Soda, Soda Ash, Sulphuric Acid
Flocculants & Coagulants	Polyacrylamide (PAM), Aluminium Sulphate, Ferric Chloride, Starch
Process Chemicals	Activated Carbon, Antiscalants, Defoamers, Extractants (SX reagents)

07

Personal Care & Cosmetics

Cosmetic-grade ingredients for beauty and personal care formulators

KEY APPLICATIONS

- Skin care product formulation
- Hair care manufacturing
- Colour cosmetics production
- Body care product development

PERSONAL CARE & COSMETICS

Terracore Chemicals supplies cosmetic-grade ingredients to personal care and beauty product formulators, at the batch sizes smaller-scale manufacturers need. Our personal care division covers skin care actives, emollients, surfactants, preservatives, and cosmetic raw materials — all supplied with the technical documentation cosmetic formulators require for safety and regulatory compliance.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Emollients & Oils	Mineral Oil, Jojoba Oil, Argan Oil, Shea Butter, Cocoa Butter, Cetyl Alcohol
Humectants	Glycerine, Propylene Glycol, Butylene Glycol, Hyaluronic Acid, Sorbitol
Surfactants	Sodium Laureth Sulphate (SLES), Cocamidopropyl Betaine, Decyl Glucoside
Preservatives	Phenoxyethanol, Ethylhexylglycerin, Benzyl Alcohol, Sodium Benzoate
Actives & Pigments	Niacinamide, Vitamin C (Ascorbic Acid), Retinol, Titanium Dioxide, Iron Oxides

08

Water Treatment Chemicals

Chemicals for industrial and municipal water treatment

KEY APPLICATIONS

- Municipal drinking water treatment
- Industrial wastewater treatment
- Cooling water treatment
- Effluent treatment and discharge

WATER TREATMENT CHEMICALS

Terracore Chemicals supplies coagulants, flocculants, biocides, and pH adjustment chemicals for industrial and municipal water treatment. Our water treatment division serves water treatment contractors, industrial plant operators, and municipal water utilities, with supply in bulk and drum quantities and technical support on application and dosing.

PRODUCT RANGE

CATEGORY	KEY PRODUCTS / GRADES
Coagulants	Aluminium Sulphate (Alum), Ferric Chloride, Ferric Sulphate, Poly Aluminium Chloride (PAC)
Flocculants	Polyacrylamide (anionic, cationic, non-ionic), Natural Flocculants (Starch, Chitosan)
pH Adjustment	Sulphuric Acid, Hydrochloric Acid, Caustic Soda, Soda Ash, Lime
Biocides & Disinfection	Sodium Hypochlorite, Chlorine Gas, Sodium Dichloroisocyanurate (NaDCC), Ozone
Scale & Corrosion Control	Antiscalants, Corrosion Inhibitors, Oxygen Scavengers, Sequestering Agents

WHY CHOOSE TERRACORE CHEMICALS

The advantages of sourcing from a single multi-division chemical distributor

CONSOLIDATED SOURCING

One supplier relationship, one account, one logistics contact — across all eight chemical categories. Reduce supplier management overhead without sacrificing product range or category expertise.

CONSISTENT QUALITY

Every product across every division is supplied with a Certificate of Analysis on request, and spec sheets for buyers who need them for their own quality control processes.

GLOBAL EXPORT CAPABILITY

Headquartered in Kimberley, South Africa, Terracore exports to customers worldwide. Bulk, drum, and container shipping arranged for each destination, with logistics handled from our end.

FLEXIBLE ORDER SIZES

From trial quantities through to full container loads, depending on the product and category. Manufacturers at all scales can build their supply chain around us.

REGULATED PRODUCT SUPPLY

For regulated products including Sodium Cyanide and commercial explosives, supply follows South African regulation and the International Cyanide Management Code. Licensed end-user documentation required.

TECHNICAL SUPPORT

Specification guidance, packaging options, shipping options, and lead times confirmed with every enquiry. We respond with what you actually need to make a sourcing decision.
